Instructions for displaying the desktop & laptop computer on the projector using the Pixie Controller.

- **Turn on the Computer (inside, or on top of, the podium) and Login. (Press and Hold CTRL-ALT-DEL, then enter your Rowan UserName & Password). Or, if using a laptop, connect it to the input plate on the front of the rack**
- **Press the ON button to TURN PROJECTOR ON** <u>Wait 60 seconds for the projector to warm up.</u>
- **After projector warmup, select your desired input by pressing the SOURCE button. (The HDMI1 input is for the Desktop computer and an HDMI Laptop) (The COMPUTER input is for a laptop which has a VGA connection)**

  The SOURCE button toggles between the HDMI1 input (Desktop computer and an HDMI Laptop), and the COMPUTER input (a VGA laptop).
- **The MUTE button will blank the display. Pressing it again will display the image once again.**

DVD (through the PC)

Play your DVD through the PC by inserting the DVD into the PC's DVD drive. Click on START, then on COMPUTER. Right-Click on DVD Drive. Click on PLAY WITH VLC MEDIA PLAYER. Look for this icon:
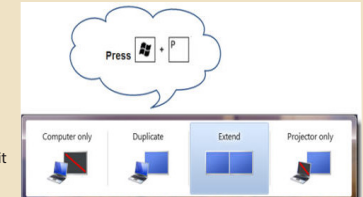

Display Laptop with VGA

Connect VGA & audio cables from laptop to the VGA & Audio connections on the Laptop Connection Plate. To toggle laptop for display on an LCD/Monitor, press **fn + f8** or **fn + f7**. Or, if using Win 7, press & hold the Windows & P keys & click on Duplicate Displays.

Display Laptop with HDMI

Connect HDMI & audio cables from laptop to the HDMI & Audio connections on the Laptop Connection Plate. To toggle laptop for display on the projector, press **fn + f8** or **fn + f7**. Or, if using Win 7, press & hold the Windows & P keys & click on Duplicate Displays. NOTE: You may have to re-route the audio on your laptop from HDMI to Analog for sound to exit the room's speakers.
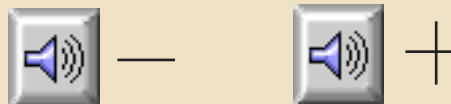

Turn Audio Amp On & Off

Turn on the **large switch** (labled "AMP" or "SPEAKERS") on the Power Conditioner in the rack to turn speakers on. **When finished, turn the speakers off**.

Adjust Volume

Use the volume DOWN (-) & UP (+) controls on the keyboard, or on the PC or Laptop to adjust the sound level on the PC.

USB/Flash/Jump Drive

Insert a USB/Flash drive into the USB port on the PC front or corner of keyboard. Before removing USB drive, click on **Safely Remove** on the Windows taskbar.
