## 1 Website Security

**STOP & ASK YOURSELF:**
How did I get to this website? Even if it appears secure, did I click on a link in an email or file? Did I expect that link to bring me here?

## 2 URL Address

**STOP & ASK YOURSELF:**
Have I visited this website before? Is the URL similar to one I know but includes an extra letter, misspelling or other unusual characters?

## 3 Site Content

**STOP & ASK YOURSELF:**
Does this site contain the navigation menus I expect to see? Does the site list contact information to contact the owner or get help?

## 4 Login Prompt

**STOP & ASK YOURSELF:**
Am I usually required to log in to access this website? If so, does this login prompt look familiar, or is there something off about it?

## 5 Download Request

**STOP & ASK YOURSELF:**
Have I ever been prompted to download a file on this type of website before? Do I normally need to take these steps to access this website?
