What is a FOAPAL?
The FOAPAL (pronounced “FOE-pull”) is “Banner-ese” for the accounting code that replaces the account numbers used in FRS. It stands for Fund, Organization, Account, Program, Activity and Location. Each element tells a specific piece of information about the transaction.
To access the **Fund** and **Organizations** that you have access to, log into Self-Service Banner and select the **Employee** tab. Select **Display Your FUND/ORGN Access**. Your FUND/ORGN account numbers will be displayed.

Budgets - Pooled Accounts

In Banner, the funds for most non-salary accounts will be pooled in the 7Z Non Salary Pooled Expense. This means that if you buy $100 of Educational Supplies using the account 7010, the funds will be taken from the pooled funds. As you spend money from accounts like Catering, Office Supplies and Mileage, it depletes the total net amount in the 7Z Non Salary Pooled Expense.

Most expenses, like Office Supplies, Catering and Travel, will be included in the 7Z Non Salary Pooled Expense account. Any accounts that will not be pooled will show as separate accounts in your budget. Some exceptions to pooled expenses include Rental, Tuition and Fees and Equipment over $5,000. The full list will be on the budget website.

To see the balance of your net total go to FGIBAVL in Banner 9 Administrative pages. In FGIBAVL you can see pooled accounts under account code 7Z.

If you see a negative in the available balance column, you will still be able to place a requisition, if the net total in 7Z Non Salary Expense is not negative (you can check the 7Z account in Banner Finance Administrative Forms, FGIBAVL).

If you place a requisition for an account that is pooled in 7Z (like office supplies or catering), and there are not enough total funds in 7Z, then you will receive an error and will not be able to proceed with the requisition.
Budget Details

Drill Down to View Budget Details
Select an amount that is underlined (hyperlinked) under appropriate budget column.

Drill Down to View Specific Transactions
Select an underlined (hyperlinked) **Document Code** to view a specific transaction.

Drill Down to View Full Document
Select the underlined (hyperlinked) **Document Code** in the **Detail Transaction Report** to view the entire document.
Download Budgets to Microsoft Excel

Self-Service Banner allows Budget Status by Account Queries to be downloaded to a Microsoft Excel spreadsheet. The spreadsheet may then be edited for further analysis, calculation, etc.

Select **Download Selected Ledger Columns** to download the columns that were selected for the query.

Select **Open** or **Save**. A location to transfer and store the spreadsheet should be indicated when **Save** is selected.

When you open the spreadsheet it will have many cells you may not need (like rows 1 to 15). Delete any unneeded cells.
Download Budget to Excel

You can also download detail pages to Excel. Select an underlined (hyperlinked) amount.

Select **Download** on the Detail page.

Select **Open with** or **Save File**. A location to transfer and store the spreadsheet should be indicted when **Save** is selected.

The sheet will open in Excel as a CSV file. You can save it as an Excel file (.xls) to do calculations.
Adding an Additional User Calculated Column
An additional calculated column may be temporarily added to your budget screen.

Below the query table, in **Compute Additional Columns for the query**, select the preferred fields in the drop down menus. Click **Perform Computation**.

The new column will appear where you designated it to appear.

To remove the computation, select **Remove Computation** at the bottom of the table.
Encumbrance Queries

Open Encumbrance Query Form
Select Encumbrance Queries from Finance menu or select from quick link at bottom of page.

To submit an Encumbrance Query
Select Fiscal year (year you want to review).
Select Fiscal period “14”.
Select “Open” for Encumbrance Status, “All” for Commitment Type, “R” for COA.
Then enter your Fund, Organization, Account and Program numbers.
Select Submit Query.

Note: You can use the “%” as a wildcard to filter your criteria. For example, enter “7%” in Account to see all accounts starting with a 7.
# Encumbrance Queries

Review **Encumbrance Details** as needed. Select the **Document Code** (blue Purchase Order number) to view the entire document.

![Image of the report output]

## Encumbrance Account Headers

- **Account**: Where the funds were pulled from for the purchase order.
- **Document Code**: Purchase Order number.
- **Description**: Vendor.
- **Original Commitments**: Original amount encumbered in purchase order.
- **Encumbrance Adjustments**: An encumbrance (PO) that was increased or decreased by Purchasing Department.
- **Encumbrance Liquidations**: Amount liquidated from encumbrance (PO) to pay vendor.
Encumbrance Queries

- **Year to Date:** Amount paid to vendor so far this Fiscal Year (FY). (If it is less than the **Encumbrance Liquidations**, it may be that part of the PO was paid in one FY and part in another FY.)

- **Current Commitments:** How much is still encumbered on the PO (after the vendor was paid or not yet paid).

- **% Used:** Percent of the original PO that has been paid to the vendor. (If your **% Used** is less than 100%, then money is still encumbered on your PO. Select the blue **Document Code** (PO number) to research the PO to see if any more invoices will be sent to Accounts Payable in the future.)

---

**Note:** If the PO is completely paid and you no longer need the rest of the PO encumbered, you should close it. The encumbered money will then be released back to your account from where it was originally encumbered.

Send an email to closeouts@rowan.edu stating:

“Close PO ＿＿＿＿＿ in the amount of ＿＿＿＿＿ (amount left on the PO).”

For the most updated list of Purchasing emails, go to www.rowan.edu/purchasing.

---

**Note:** If you need to edit a PO, such as to increase it or decrease the total amount:

Go to the **Change Order Request Portal** or go to rowan.edu/purchasing and look for the link for the Change Order Request Portal.
Budget Transfer

Budget Transfers (To transfer within the same Org and Fund, between only two accounts.)
Select Budget Transfer from Finance menu or the quick link at bottom of page.

Another Requisition, Same Vendor  
Another Requisition, New Vendor

If you place a requisition for an account that is pooled in 7Z (like office supplies or catering), and there are not enough total funds in 7Z, then you will receive an error and will not be able to proceed with the requisition.
Requisition—Standing Order

Entering a Standing Order
Enter the requisition just like a regular order, except the following:

Enter in **Comments, Document Text and Commodity Line**: “SO” or “Standing Order”

Enter in **Lot or Each** under **U/M** and **Quantity** of “1”.

If you have your account number (for that vendor) you can also enter that in the Commodity Description.
Create a Requisition Template

To Save as a Template
You can also create a requisition template for vendors or orders you place frequently, like Office Depot.

Fill out the information on a requisition.

At the bottom, in the Save as Template field, you can type a name for the template—like “Office Depot Order”.

Do not check Shared.

Once you complete your order, it will be saved as a template that you can reuse.
Retrieve a Requisition Template

To Retrieve Requisition Template
From the **Finance** tab, select **Requisition**.

Select your template from the **Use Template** dropdown list.

Select the **Retrieve** button.

Everything that you entered in the original requisition will automatically fill in. You can change anything that needs to be changed (for example the **Unit Price**, or the **Fund** and **Org**).

Once everything is how you want it, select the **Commodity Validate** button. The **Calculated Commodity Amounts** will fill in.

Select **Validate** then **Complete**.

A new requisition number will then be assigned to the new order.
Delete Template

Go to Delete Finance Template Form

Select **Delete Finance Template** from the **Finance** menu or from the quick link at the bottom of the page.

Enter Query Parameters.

Enter **Template/Query Name** (optional).

Select **Template/Query Type**.

Select **Submit Query**.

Select the **Delete** check box to the right of the template name. (You may only delete templates you originally created.)

Select **Delete**.

Confirmation Appears at Top of Page.

![Check box]

**Deletion of selected templates or queries complete.**
Update a Denied or Incomplete Requisition

Go to Search for In Process Requisitions

If you get a notice that your requisition was denied and you have to fix it, you can search for it and fix it on Self-Service Banner.

From the Finance tab, select Requisition.

Select the button at the top of the page—Search for In Process Requisitions.

Select the Execute Query button from the Document Lookup screen.

Any in process documents will appear.
Select the Requisition Number.

The requisition will now appear on the page for you to make changes.
When you are finished, select Complete at the bottom of the page.
