By the end of this manual the learner will be able to:

1. Set up shortcuts and learn how to navigate Banner 9.
2. Understand the requisition to check process.
3. Read, drill, filter and download budget information.
4. Find, drill and complete open encumbrances.
5. Search for vendors, place requisitions and correct incomplete requisitions.
6. Receive regular, partial and standing orders.
7. Research and understand the history of a purchase order.

- **Appendix C - Rule Codes** .................................................................................................................................... 85
- **Appendix D - Find your Fund and Org Access** ................................................................................................ 86
- **Appendix E - Leave Program Code off in FGIBDST** ............................................................................................ 87
Log onto Banner. Open your Google Chrome browser.

Type `banner.rowan.edu` in the address bar at the top of the screen. Enter.

Scroll down until you see Banner Administrative Pages. Select Log into Banner Administrative Pages. If you are on campus select the On-Campus Access but if you are off campus select Remote Access.

Type your Rowan NetID. Select **LOGIN**.
THE WELCOME SCREEN:

1. Icon showing who logged in.
2. Button to log out. You can also close the browser to log out.
3. Search bar in the middle of the screen.
4. Toggle menu.
5. Search icon to search on any screen.
6. Folder to access recently used forms.
7. Application navigator.
Use the Search bar in the middle of the page. You can search for the description, such as Requisition or for the form name, such as FPAREQN.

You can also use the search icon at the left of the page to search by form name or description. The search icon will stay at the left of the page when you are in other forms. So you can leave a form open and search for and open another form on top.

The folder icon at the left of the page will display a temporary shortcut to the forms you accessed during the current log in.
**REQUISITION FPAREQN SCREEN**

1. **PAGE HEADER** - The page header identifies the open page name and contains icons for the basic navigation.
2. **RELATED ICON** - displays a list of pages that can be accessed from this page.
3. **TOOLS ICON** - includes refresh, export, print, clear record, clear data, item properties, display ID image, and other options controlled by the page.
4. **MAIN KEY BLOCK** - The first block on most pages contains key information.
5. **SECTIONS ICONS** - Each section has the following icons for that section: Insert records, Delete records, Copy records, Filter records, More Information icon displays if supplemental data can be entered for the record (Refer to Supplemental Data Engine for more details) and Filter records.
1. The Go button advances to the body of the page after populating the key block.
2. The Start Over button returns to the key block of the page.
3. Next and Previous buttons allow you to navigate through sections in a page. Both buttons are located at the bottom left of each page.
4. Save is located at the bottom right of the screen.
5. To close a form, select the X at the top left of the screen.
Select the toggle menu at the left to open the Banner menu. They are shortcuts to the Banner forms. The Banner selections are provided by the vendor and are grouped in categories.

Select the Applications category.

My Banner consists of shortcuts created by the end user. We will go over how to create your own shortcuts later in this manual.

FORM NAMES ARE BASED ON A NAMING CONVENTION.

FOR EXAMPLE, THE FORM FPAREQN, WHICH IS USED TO PLACE REQUISITIONS, IS BASED ON THE CRITERIA OUTLINED HERE.

ALL FINANCE FORMS BEGIN WITH AN “F” AND THE SECOND LETTER IS “P” IF IT IS A PURCHASING FUNCTION, ETC.

POSITION 4

Unique four-character code identifying form/report/etc.

***DOCH  | Document History |
***IDEN   | Identification   |
***PERS   | Person           |
***REQN   | Requisition      |
SET PREFERENCES

Set your preferences so that:

A. You can see columns heads when you download an Excel spreadsheet.

B. See the names of the screens on My Banner.

WELCOME SEARCH BAR

1. In the Search bar type Preferences. Select **GENERAL USER PREFERENCES MAINTENANCE**.

2. In the **Display Options** tab, make sure **all of the boxes are checked** on the left side of the page. By default, the second and last one are not checked.

3. Select **Save**.

You can create shortcuts in My Banner so you don’t have to memorize or search for the correct screen. Search for “My Banner”.

Select **My Banner Maintenance**.

If you have never set up Banner shortcuts, you will see an empty form on the right side. Type a form name in the **Object** column on the right side (ex. FOIDOCH).

Tab once to allow the Description to be populated. The Description is what you will see in your shortcut. You can change the descriptions if you wish.

When you are finished entering, **Save** and close the form.
The following forms are recommended for Finance.

FOIDOCH (Document History) - Find PO, Requisition, Invoice, Check, and Receiving history.
FPAREQN (Requisition) - Create a requisition.
FPARCVD (Receiving) - Receive purchase orders.
FGIBDST (Organization Budget Status) - Budget for non-grant departments.
FGITRND (Transaction detail) - See details of expenditures - can filter.
FGIOENC (Organizational Encumbrance List) - Open purchase orders and travel encumbrances.
FGIBAVL (Budget Availability Status) - Check to see if you have anything stuck in the system. Shows unprocessed items.
FOADOCU (Documents by User) - Will show all the requisitions and transfers you created.
FGIENCND (Detail Encumbrance Activity) - See the payment history and balance of a purchase order.
FPIPKSL (Receiver/Packing Slips Validation) - See all the receiving codes for a purchase order.
FAIINVL (Invoice/Credit Memo List) - Check if a credit memo has been issued.
FAIVNDH (Vendor History) - Look to see if a check was issued via the vendor’s invoice number or per vendor.
FOIVEND - Search for a vendor by name (only Vendor ID and Vendor name will show).
FPIOPOV - Purchase Orders by Vendor

For Grants:
FRIGITD (Grant Inception to Date) - Shows grant budget per the grant fiscal year.
FRIGTRD (Grant Transaction Detail Form).

**NOTE:** If you try to add a screen you do not have access to, you will receive an error message at the bottom of the page.
At times you may find yourself using forms that need to open everyday and would prefer to access the form as soon as you log into banner. To add a favorite form search for the form in the Welcome search box.

You should now see a clear star to the right of your searched form. Select the star to add the form to your favorites.

To view your favorite forms. Open the navigation panel to the left. First, select the star tool. A slide panel should now be available with your list of favorite forms.
The form FGIBAVL will display any documents that are “hung-up”, unprocessed, pending or still in approvals in Banner.

In the Search enter FGIBAVL.

Enter **Chart** of Accounts - R.
Enter **Fiscal Year**.
Enter **Fund**.
Enter **Organization**.
Enter **Account** (Required). To see the all the accounts, type 6000 and it will display everything from 6000 and on. Enter **Program Code** (Required).
Select the green **Go** button.
Look to see if there are any checkmarks in the Pending Documents column. This indicates that something could be stuck, or not yet processed, in the system. Place your cursor in the account of the row that indicates a pending document.

Select Related- Pending Documents from the menu bar.

A list of pending documents or errors may appear. You can check the requisitions or invoices listed in the messages for more information. You may have to call Purchasing, Accounts Payable or Accounting Services for clarification, if you do not understand the messages.
In Banner, the funds for most non-salary accounts will be pooled in the 7Z Non Salary Pooled Expense. This means that if you buy $100 of Educational Supplies using the account 7010, the funds will be taken from the pooled funds. As you spend money on accounts like Catering, Office Supplies and Mileage it depletes the total net amount in the 7Z Non Salary Pooled Expense.

In FGIBAVL you can see pooled accounts under account code 7Z. Most expenses, like Office Supplies, Catering and Travel, will be included in the 7Z Non Salary Pooled Expense account.

Any accounts that will not be pooled will show as separate accounts in FGIBAVL. Some exceptions to pooled expenses include Rental, Tuition and Fees and Equipment over $5,000. The full list will be on the budget website (see Appendix B for website).
BUDGET - POOLED AND NON-POOLED EXPENSES

In FGIDBST, you will still see the original budgeted amount and actual expenses in the individual accounts (like Supplies, Printing and Catering).

When you place a requisition in an account that is low in funds or negative (say 7000 for supplies), and there is enough total funds in the 7Z Non Salary Expense Pool, then the requisition will complete and be forwarded to the Approval process.

For example, if you only have -$654 in account 7000, but need to order office supplies, you can still order it if you have enough total funds in the 7Z Non Salary Expense Pooled Account.

If sufficient funds are not available in the 7Z Non Salary Expense Pool, however, the Requisition will notify you that there is insufficient budget in that sequence before you hit complete. This error means you have depleted your available balance in the Non Salary Expense Pool. You will need to transfer funds before completing the requisition.
In the **Search** enter FGIBDST (Organization Budget Status Form). Enter.

For grants, see section about Grant Budgets.

**Enter Budget Information**

Enter **Chart of Accounts** (Chart) ‘R’ (usually already filled in).
Enter **Fiscal Year** (Rowan’s fiscal year begins in July so July 1, 2017 would be FY 18).
Choose Both for Commitment Type from drop-down selection.
Uncheck Include **Revenue Accounts** (unless you have a revenue account).
Enter **Organization, Fund, and Program**.
**Hint** - for this screen you can leave off program code. This way you will capture any expenses that may have gone through with the incorrect program code - for an example see Appendix E.)
Select the green **Go** button.
The budget will fill in the next block.

Use the scroll on the right side to see the rest of the budget.

**Columns on Budget Form**

**Account, Type, and Title** - Spending category. (For a list of all account codes see [rowan.edu/accounts payable](https://rowan.edu/accounts payable).)

**Adjusted Budget** - Budget after any budget transfers.

**YTD Activity** - Total payments/transactions completed to date. Includes items invoiced regardless of whether a check is sent.

**Commitments** - Total of both requisitions (reservations) and open purchase orders or travel encumbrances (encumbrances).

**Available Balance** - Current amount available to spend.

To clear the form and view a different budget, select **Start Over**.
**Download to Excel**

**Excel Spreadsheets in Banner 9**

You can download FGIBDST (and other forms) into an Excel spreadsheet.

**To download the Excel Spreadsheet:**

With your budget open in In FGIBDST,

Select Tools or the Gear icon from your top menu.

From the drop down menu – select **Export**.

Your file will appear at the bottom left of your page (in Chrome) as a .csv file and will open in an Excel spreadsheet.

You can save the file as an Excel worksheet and then perform any calculations you wish. Remember, the Excel sheet will not update. This is just a snapshot of a particular day and time of your budget. For an up-to-date accurate look at your budgets, always go to the budget pages on Banner.

If the spreadsheet will not open on your computer, you may have popup blockers preventing it from opening. Please call the Support Desk (856) 256-4400 to help you.

There are many other forms you can download to Excel, anytime that the Export feature is available.
To review all the details of your transactions, place your cursor in the Account you would like to query (i.e., 7000 for supplies). If you would just like to see budget transfers, put the cursor in a field in the Budget column, or in YTD for invoices and payments, or Commitments to see just requisitions, purchase orders and travel encumbrances.

Select Related from the menu bar and then Transaction Detail Information (FGITRND).
You can **Filter** the transactions to see all purchase orders, invoices or vendors, etc.

To filter the transactions select **Filter** from the menu bar.

The Basic Filter will appear on the top of the screen. Here you can type in the EXACT Account, Organization, Program, Field, Amount or Add Another Field.

Select **Add Another Field**, then select **Type** to add the **Type** field. Type “PORD” into the **Type** field and select **Go** to see all purchase orders (See Appendix A for frequently used Rule Codes).

If you want to do a more advanced filter, select **Advanced Filter**.

Then you can add qualifiers to your search like **Starts With**, **Contains**, etc., in case you do not know the exact search criteria.
You can export this to Excel by selecting **Tools - Export** as explained previously.
Go can also go directly to form **FGITRND**.

Type in your FOAPAL information in the first block. Leave **Account** blank.

Select the green **Go** button.

Select the fields you want to filter by.

To see all the accounts that begin with 7 (i.e., 7000, 7010, 7200, etc.), select **Advanced Filter Account, Starts with** and then type 7.

Select **Add Another Field - Type, Contains**，“PORD”

Select **Go**.
This will show all your purchase orders for the whole FOAPAL for this fiscal year.

This can also be downloaded to Excel (Tools - Export).

</table>
Open Encumbrances are purchase orders and travel encumbrances that still have money encumbered (and have not been paid to the vendor).

In the Search enter **FGIOENC**.
Enter **Chart** - **R**
Enter **Fiscal Year**.
Enter **Organization**.
Tab and enter **Fund**.
Select the green **Go** button.

You can see all of your open encumbrances in one clean list. This list can be downloaded to Excel (Tools - Export).

To see more information about an encumbrance:

Select the field containing the PO number.

Choose **Related** from the menu bar.

Choose **Query Detail Encumbrance Info** (FGIENCD) from the dropdown.

**FGIENCD** (Detailed Encumbrance Activity Form) will open.
DETAILED ENCUMBRANCE ACTIVITY - FGIENCD

FGIENCD will show the balance of your purchase orders and the history of invoices and credit memos against them. If you need even more information about the purchase order, open FOIDOCH from the start page and enter the PO information.

New purchase orders that have not yet been invoiced or paid need to stay open, as do standing orders. Sometimes, however, you may have money left on an encumbrance. For example, a vendor may give you a discount and not charge you as much as you had requested on the requisition. Sometimes items are out of stock or discontinued, and they will never be delivered. A purchase order that has money encumbered, that will never be used, must be closed. If you do not close it, then the encumbrance will roll over to the next fiscal year. The money, however, will not roll over to the next fiscal year (exceptions are grants and some accounts that roll over funds).

Go to the Office of Contracting & Procurement Webpage - https://sites.rowan.edu/procurement/

Select How to Purchase Goods. Complete the Closeout Request Form.
FRIGITD – Budget history of a grant.

The FRIGITD form will show you the budget history of a grant from the inception of the grant even if it crosses Rowan fiscal years (FY). For instance, if you have a grant that starts October 1, it is not easy to see the whole budget going through FGIBDST because it will display the budget based on Rowan’s FY. FRIGITD allows you to see your whole budget no matter what Rowan FY it crosses.

In the Search field, enter FRIGITD.

Enter Chart of Accounts - R.

In the Grant field enter the grant number (G+Fund, i.e., G50902). Tab.

Enter Fund (grant number without the G - for example 50902).

Tab - Organization should automatically fill in.

Select the green Go button.

Your budget will fill in below. To drill for more details, filter and export to Excel, refer to the directions for FGBDIST.
To create a new requisition:

In the Search field enter FPAREQN.

Type the word NEXT for new requisition.

Select the green Go button.

**Complete Requisition Date and Comment Code**

**Order Date** and **Transaction Date** are already populated for you.

Enter **Delivery Date**. (Double click field and calendar will pop up and select today's date. Or, just type any letter in the date field and tab.)

Enter a short comment in **Comments** if applicable. *For Standing orders you will type SO or Standing Order in this comment block. Most other comments should be entered in Document Text.* **IMPORTANT NOTE:** Accounts Payable cannot see comments entered in the comment block.

Select Next Section.
Enter Requestor/Delivery Information

1. Enter **Organization**.
2. Enter requestor’s **Email**.
3. Enter Phone Number.
4. Enter **Ship To** code. (If you don’t know the **Ship To** code, select the arrow next to that field to search for it. The **Ship To** is the location where the items will be delivered.)
5. Enter **Attention To** (Enter your name so it will appear on the purchase order).
6. Select Next Section.
Use **Document Text** to communicate additional information about your whole purchase order to the Office of Contracting & Procurement and/or vendors, such as: Standing Order, special instructions for Purchasing or the vendor, quote numbers, discount codes, and any other additional information pertaining to the whole purchase order. **Note:** If you have new vendor information or a new address, email vendors@rowan.edu prior to creating a requisition.

**DO NOT** enter any information about payments or other information for Accounts Payable. They will never see these instructions.

1. Select **Related** from the menu bar.
2. Select **Document Text (FOAPOXT)**.

On the first screen, do nothing but select the green **Go** button.

Enter the document text. Use the down arrow on your keyboard to add more lines if needed. Use the **Delete** button to delete lines.

**Note:** Leave the Print field checked if you want the information to print on the Purchase order. Uncheck if the information should be off the purchase order.

When finished, save and close.
There are a few possible scenarios for vendors:

1. You know the Vendor ID.
2. You know the vendor name, but not the Vendor ID.
3. Your vendor is not in Banner.

1. If you know the Vendor ID:

Enter the Vendor ID in the **Vendor** field. 
Tab to allow the address and contact fields to populate.

2. If you do not know the Vendor ID:

Search for the Vendor ID. 
Click in the **Vendor** field. 
Select three dots next to the first field after the word **Vendor**.

In the popup dialog box (Option List) choose **Entity Name/ID Search (FTIIDEN)**.

You will then see the FTTIDEN form.

If you know the EXACT name of the vendor, type it into the **Last Name** field.

Select **Go**.

If you do not know the EXACT name of the vendor, or are not finding the vendor by typing it into **Last Name**, select the **Advanced Filter** link under **DETAILS**
Select **Contains** (or **Starts with**, etc.) next to **Last Name**, then type in part of the vendor name that you are sure of.

You can select **Case Insensitive Query**.

Select **Go**.

You may see a list of several vendors with similar names.

Look in the **Vendor** column to make sure it is not listed as **Terminated**.

Double click in the vendor ID of the one you would like to select or select the vendor ID and choose the **Select** button at the bottom right side of the page.
The **Vendor ID** field will now be populated. Put your cursor in the field, and then select the Tab key on your keyboard. The vendor name and address will populate. If this is the correct address, select **Next Section** icon on the bottom left of the page.

If the address is incorrect, select the three dots next to the **Address Type** field to view additional addresses.
The number of addresses on file for that vendor is indicated at the bottom of the page. You can change the number per page or scroll through the addresses using the arrows at the bottom of the page or the down arrow on your keyboard. When you find the correct address, double click on the **Address Type** and that address will fill into the vendor information page.

Once the vendor is entered, select the **Next Section** icon on the bottom left.

If you cannot find the correct vendor or vendor address, email the Office of Contracting & Procurement at vendors@rowan.edu.
Always Tab to move between fields in this area for automatic calculations to work correctly.

Enter Line Items:

Enter **Commodity Code**.

For a list of Commodity codes go to: [https://sites.rowan.edu/procurement/files_forms/content_website/CommodityCodes-9.6.2017.pdf](https://sites.rowan.edu/procurement/files_forms/content_website/CommodityCodes-9.6.2017.pdf).

Enter **Description**. (Type over the one auto entered by commodity code. Should be descriptive enough that the vendor and Purchasing know what you are ordering. If it is for a service, include the date and the type of service. This description will show on the check stub.)

Enter **Unit of Measure (U/M)**.

Enter **Quantity**.

Enter **Unit Price**.

Tab until you get back to the **Description** field.

For additional items, select the **down arrow on the keyboard** and repeat until all items are entered. To delete a line, select the line and select **Delete**.

After you have entered all your line items, select **Save** and then **Next Section** from the bottom of the page.
Optional - Item Text

Each line holds up to 50 characters (8-10 words).

To add additional descriptions for each line item:

Select the item

Select Related-Item Text from the menu bar.

Select the green Go button.

In the text fields, type the information about the item. Select the down arrow on your keyboard to add additional lines. To delete the line, select it and then select Delete.

When finished, select Save and close.

Item Text will now be checked to indicate that item text has been entered.
The accounting information tells Purchasing the fund/org/account/program (otherwise known as FOAPAL) you will be using to pay. You can pay it all with one FOAPAL or split among multiple FOAPALs.

**Charge entire requisition to one FOAPAL:**

COA and FY are prefilled.
Skip Index.
Enter **Fund**.
Enter **Organization (Orgn)**.
Enter **Account (Acct)**.
Enter **Program (Prog)**.

Tab past **Actv, Locn, Proj** and keep tabbing until you come to the first field under the USD column. The correct **Extended Amount, FOAPAL Total** and **Document Total** should show.

Select **Save** and then **Next Section** from the bottom of the page to go to **Balancing/Completion**.
To charge to multiple FOAPALs:

Place cursor in COA field, then hit the down arrow on the keyboard to enter another accounting line.

Enter the accounting information for the next account.

Select the check box for % Extended Amount and type the percentage under the USD Extended Amount.

Optional:

Enter the accounting information for the first account.

Enter the amount to be charged to the first FOAPAL in the first field under the USD column.

Place cursor in COA field, then hit the down arrow on the keyboard to enter another accounting line.

Enter the accounting information for the next account.

Enter the amount to be charged to the second FOAPAL in the first field under the USD column.

Select Save and then Next Section from the bottom of the page to go to Balancing/Completion.
What is Document Level Accounting vs Commodity Level Accounting?

With Commodity Level Accounting, you can assign a specific FOAPAL to each commodity, or line item, in your requisition. For instance, if you are ordering equipment with grant funds, but the grant won’t pay for shipping, then you would use Commodity Level Accounting. This will ensure that when the invoice comes in for the equipment, it is paid from the correct FOAPAL and the shipping is also paid from the correct FOAPAL.

In Document Level Accounting, the FOAPAL funds are distributed among the line items each time an invoice comes in by the percent or the ratio you put in the Accounting section of the requisition. For instance, if you split the accounting 50/50 then every time an invoice comes in for that PO it gets paid 50% out of each FOAPAL. If you indicate that $100 out of FOAPAL A and $50 out of FOAPAL B the ratio is 2 to 1; so if an invoice comes in for $30, then $20 will be paid by FOAPAL A and $10 will be paid from FOAPAL B.

By default, Document Level Accounting is checked. If you need Commodity Level Accounting, you must un-check Document Level Accounting check box before going to the Accounting section (where you enter the FOAPAL). The check box is located in the key block (top of the form). The box is checked by default, so you must uncheck it to do Commodity Level Accounting.
Enter Commodity Code, Description, U/M, Quantity and Unit Price for Item 1.

Next Section.

Enter FOAPAL in the accounting section and tab down to enter Extended Amount. Tab back to the FOAPAL line.

Select Previous Section to enter the next line in the commodity section.

Select the down arrow on your keyboard to enter a new commodity line.

Enter Commodity Code, Description, U/M, Quantity and Unit Price for Item 2.

Next Section
Now enter the FOAPAL for that commodity line, and tab down to enter **Extended Amount** for that item.

Repeat for any additional commodities and FOAPALS. Once all commodities and FOAPALs have been entered, select **Save** and then **Next Section** from the bottom of the page to go to **Balancing/Completion**.
Complete the Requisition

Make sure Status reads **BALANCED**. If not, go to previous page and correct the accounting block.

Select **Complete** to complete the requisition, or **In Process** to keep it as an incomplete requisition.

The Requisition number will be noted on the top right-hand side of the page.

If sufficient funds are not available in the 7Z Non Salary Expense Pool, however, the Requisition will notify you that there is insufficient budget in that sequence. This error means you have depleted your available balance in the Non Salary Expense Pool. You will need to transfer funds before completing the requisition.
COPY AND REUSE A REQUISITION

In Banner 9, you can copy one of your own requisitions to use all the information from it to create a new requisition. You may find this helpful on orders to vendors you use frequently, for instance, Office Depot. The entire requisition (vendor, items, document text, etc.) will be copied, although you can change anything that needs to be changed such as the vendor, item, quantity, amounts and FOAPAL.

Go to FPAREQN and select the **Copy** Button.

Enter the requisition number (not PO number) you would like to copy in the **Requisition** field. Select **OK**.

The new requisition number is immediately assigned.

Enter your **Delivery Date**. Your **Commodity Total** will change if you update your item, quantity, unit price, etc.

Make any changes necessary for the new requisition (for example vendor, item, quantity, amounts and FOAPAL).

Complete the requisition as usual.
A Standing Purchase Order is a purchase order that you can pay on throughout a fiscal year. When received on FPARCVD, a dollar amount is received instead of quantity (as in regular orders).

**When should I place a Standing Purchase Order instead of a Regular Purchase Order?**
For an order that will have multiple invoices.
For something you may order all year long from the same vendor; for example, the water cooler rental, shredding service or pizza place.
For an order for which you want to receive a dollar amount in FPARCVD rather than a quantity. (For example, an order that is put in as a Lot instead of individual lines. Each standing order can only be used for one order, however.)

**How to place a Standing Purchase Order.**
Estimate how much you will spend for the items in a fiscal year, and place a standing purchase order requisition for the estimated yearly cost.
Follow instructions for entering a requisition with the following additions:
Enter SO in **Comments** field and indicate a standing purchase order is requested in **Document Text**. See Receiving Standing Purchase Orders for how to receive the order on FPARCVD.

**How do I know if my order is set up as a Standing Purchase Order?**
Enter FPIPURR.
Enter the **Purchase Order** number, leave **Blanket Order** field blank, Next Section.
**Type** on the **Document Information** screen should note ‘Standing’ Note: The final PO Document will also read Regular Purchase Order if you create a regular order.

Note how Standing or Regular Purchase Order is titled on the Purchase Order.
Go to FOIDOCH.

Type REQ in the Document Type and the incomplete requisition number in the Document Code (instead of the word NEXT). Select the green Go button.

If there is no status indicated next to the requisition number, the requisition is incomplete.

Go to FPAREQN. Instead of NEXT, enter the incomplete requisition number. Select the green Go button.
INCOMPLETE REQUISITION

To complete the requisition, select **Next Section** to move through the screens and make any changes that are needed.

After changes are completed, select **Complete** on the last page.

To *delete* the requisition, select the **Requestor** field (your name) and the **Delete** button.

Press **Delete** again to delete the record.

Select **OK**.

Deletion of Requisition is complete.
Once items are physically received or services have been rendered from a requisition you have placed, you must enter Receiving information in Banner 9. The vendor will not be paid until this step has been completed.

You have three choices in receiving:

1. You physically received all your items at once (Complete Regular Order).
2. You only receive some items in the order (Partial Regular Order).
3. You receive a dollar amount (Standing Order).

Hints:

If you receive multiple times on a purchase order - you will create a new receiving code every time.

Don’t put any information in document text for Accounts Payable - they don’t read it. Contact them directly to give specific direction about payments.

Accounts Payable pays on the invoice, not how much you received.

If you are receiving a standing order, you can check the amount of the invoice in FOIDOCH.

Once you complete a receiving, it can not be undone, not even by Accounts Payable.

If you accidentally received the incorrect order, and completed it, contact Accounts Payable.

Enter into FPARCVD - Receiving Goods.

Type in the word NEXT and the next Receiver Document code will prepopulate. Select the green Go button.
RECEIVE A COMPLETE REGULAR PURCHASE ORDER - FPARCVD

Receiving Header

Leave Receiving Method blank. Leave Carrier Blank. Next Section.

Packing Slip

Enter your Invoice or Packing Slip number or initials and date (i.e., jvs032817). Leave Bill of Lading blank. Next Section.

Purchase Order

Enter Purchase Order number. Select tab key to confirm that correct vendor appears.
From the menu bar select Tools -

**Receive All Purchase Order Items.**

You will still be on the first screen.

Select **Next Section** from the bottom left.
Commodity Screen

You will see on this screen that all items are automatically received and **Final Receive** is checked. This is just to review. There is nothing to enter here.

Select the **Complete** button at the bottom of the page to complete the receiving.

You will receive a confirmation on the top right section of the page that the receiving was completed.
Create Receiver Document Code

Type the word “Next” in the **Receiver Document Code** field. Select the green **Go** button. A receiving code is immediately created.

Receiving Header
Leave **Receiving Method** blank. Leave **Carrier** blank. **Next Section**.

Packing Slip
Enter your invoice or **Packing Slip** number or initials and date (i.e., SOH072904). Leave **Bill of Lading** blank. **Next Section**.

Purchase Order
Enter **Purchase Order** number. Select tab key to confirm that correct vendor appears.
From the menu bar select Tools - Select **Purchase Order Items**.

Select the green **Go** button.
Select the check box next to the items you wish to receive.

Save and then select Close. You will receive a warning notice when you close. Just choose Yes.

You will be still sent back to the first screen. Select Next Section from the bottom left.
RECEIVE A PARTIAL REGULAR PURCHASE ORDER - FPARCVD
In the **Commodity Code** section, enter the Amount you want to receive in the **Current** field. Tab and the original **U/M** (unit of measure) will automatically fill in.

If you are receiving more than one line, select each line (each record) and enter the amount you wish to receive for each. If you do not receive each line item you will get an error message.
Select **Complete**.

You will receive a message at the top of the page with acknowledgement of completion.
Create **Receiver Document** code. Type the word Next in the **Receiver Code** field. Select the green **Go button**. (A receiving code is immediately created)

**Receiving Header**
Leave **Receiving Method** blank. Leave **Carrier** blank. **Next Section**.

**Packing Slip**
Enter your invoice or **Packing Slip** number or initials and date (i.e. SOH072904). Leave **Bill of Lading** blank. **Next Section**.

**Purchase Order**
Enter **Purchase Order** number. Select tab key to confirm that correct vendor appears.
From the menu bar select **Tools - Select Purchase Order Items**.

Select the green **Go** button.
Select the check box next to the line item.

Save and then Close.
You will receive a warning notice when you Close. Just choose Yes.

You will still be on the first screen
Select Next Section from the bottom left.
Enter the current amount you will be receiving today. Tab for U/M (unit of measure) to fill in.
Select **Complete** at the bottom of the page.

You will receive a confirmation at the top right of the page that the receiving was complete.
RECEIVING MORE THAN ONE RECORD

When you are receiving in Banner 9, you may get a warning that “Commodity record(s) exist …..without any received amounts”. This means that you have another record to receive. Make sure you receive all the line items (records).

You can see at the bottom of the form there are multiple records. Receive the first one and then select the next record line to receive it.

Enter the amount to receive for the second record. Repeat for each line,

Then select complete.
**INCOMPLETE RECEIVING CODES**

In FOIDOCH, if there is no status indicated next to the receiving code, the receiving is incomplete.

**Complete an incomplete receiver code**
Go to Form FPARCVD. In the Receiver Document Code field enter your incomplete receiver code (Y_ _ _ _ _ _ _). Select the green **Go button**. Complete the receiving steps.

**Delete an incomplete receiver code**
Go to FPARCVD. In the Receiver Document Code field, enter your incomplete receiver code (Y_ _ _ _ _ _ _). Select the green **Go button**.

While cursor is in Receiving Method field select Delete twice.

You will receive an acknowledgement that it was deleted.
In FOIDOCH you can look at the history of a purchase order including the requisition, invoices, checks and receiving codes. Go to FOIDOCH.

Enter the Document Type - depending on what code you have:

**REQ - Requisition**
**PO - Purchase Order**
**RCV - Receiver code**
**INV - Invoice**
**CHK - Check**

Enter Document Code - Your requisition, purchase order number, receiving code, check number or invoice.

Select the green **Go** button.

Each document code is followed by a status indicator.

To clear the form to look up additional Document codes, select the green **Start Over** button to clear the form.
If a Requisition is complete, and waiting to be converted into a PO, there will be a C in the status indicator field. If the status indicator field is blank, then the Requisition is incomplete. See instructions in this book on how to complete an incomplete Requisition. If there is an S, then call the purchasing office because the requisition is in suspense.

For more information about a Requisition:
Select the Requisition field
Select Related—Query Document by Type Information from the menu bar.
Select the green Go button.
Use the Section buttons to move through the form.

Select the close button to return to FOIDOCH.
In the Purchase Order field, if a PO has been approved there will be an A in the status field and Status Description will be Approved. If there is not an A, call the purchasing office.

For more information about a Purchase Order in FOIDOCH:
Select the Purchase Order field
Select Related - Query Document by Type from the menu bar.
Select the green Go button.
Use Next Section to move through the form.
One thing that you can check on this form is if a purchase order is a Regular or Standing order.
Check If your Receiving is complete!

Your receiver document code MUST have a complete status indicated by a C in the Status column. If not, follow directions in this book next page to resolve it.

To drill down for more information about a receiving code
Select the receiving code
Select Related—Query Document by Type from the menu bar.
Select the green Go button.
Use Next Section to move through the form.
In the Invoices field, if an invoice has been issued, there will be one or more invoice numbers. Next to the invoice number there will be a status code (Blank, P, R, X or S).

**Blank** – not yet paid

**P** - Paid

**R** - The Receiver Code is not registering.
   - If your receiving is incomplete, complete it.
   - If your receiving is complete, and everything looks fine, call Accounts Payable.

**S** - There may be a problem with the invoice—contact Accounts Payable.

**X** - The invoice was cancelled.

For more information about an invoice:

Select the Invoice Number.
Select **Related - Query Document by Type** from the menu bar.
Select the green **Go** button.
The **Invoice/Credit Memo Query** form will open.
Use Next Section to move through the form.
Some important fields to check:

**Commodity Record Count** - Number of line items on this invoice.

**Invoice Item**—indicates the line item. Use the down arrow on your keyboard to see other line items.

**Ordered** indicates the quantity and price from the original Purchase Order

**Invoiced** indicates what the vendor is charging. Sometimes this could be more or less than the original order.
In the Check field, if the check has been issued, there will be a check number. Next to the check number there will be a status code (X, F or Blank):
- Blank – newer check, not yet reconciled in Banner
- F- Check has been finalized or reconciled
- X- Check was voided

If it is an electronic check (indicated by an ! in the first digit, the status will always be blank.

For more information about a check:
Select the **Check Disbursement** field.
Select **Related - Query Document by Type** from the menu bar.

Enter in the Bank field. The Bank field is the first two digits of the check number. If the check starts with an exclamation point, then it is an electronic check, and the Bank is 30).

Select the green **Go** button.

The Check Payment History screen will open.
Check Date indicates the day the check was “cut” or made. Check Accounts Payable for mailing dates.

Check Amount indicates the total of the check (which may include other invoices to the same vendor). If it is paid to a frequently used vendor, like Office Max, then many invoices (from many POs) may be paid from one check.

Document Number indicates the invoices paid with the check.

Vendor Invoice Code - the vendor's actual invoice number for your Purchase Order.

Vendor Invoice Amount - the invoice for your particular Purchase Order

With the cursor in one of the invoices, select Related and Document Inquiry to find out more information about the invoice.
Use the **Detailed Encumbrance Activity** form to show the balance of your purchase orders, travel encumbrances, and the history of invoices and credits. It’s a good screen to keep track of how much is left on a standing order. This form can also be used to explore why an encumbrance is still open.

Go to **FGIENCD**

In **Encumbrance** type your Purchase Order number.

Select the green **Go** button.

**Encumbrance, amount liquidated and balance.**

**History of Invoices and Credit memos against the Purchase Order**
Use the **Document by User** Form to display a list of documents originated by a specific user. Go to FOADOCU. The **User ID**, **COA** and **Fiscal year** are already populated. Change the User ID, Fiscal Year or enter Activity Dates if desired.

Select the green **Go** button.

You will see a list of requisitions (REQ) and budget transfers (JV) originated by the user. If any have a blank status, they are incomplete (see incomplete requisitions for directions).

Select one of the Requisition numbers in the list and then select **Related - Document History** to open FOIDOCH and drill down for more information.

Select one of the JV (Journal Voucher) numbers in the list and then select **Related - Query Document (BY TYPE)** to open FGIDOCR and drill down for more information.

You can see the FOAPAL where you debited and credited the funds.
Go To FAIVNDH. Find the Vendor ID by selecting the three little dots next to the Vendor field.

Select Entity Name Search (FTIIDEN)

To query the form, select “Last Name” from Add Another Field.
Select query options such as **Contains & Equals**. We no longer use the % wildcard. Type in the Vendor name. It is case sensitive.

Select **Go**.

Double click on the vendor you wish to research.
It will bring you back to FAIVNDH with the Vendor number filled in. Select the green Go button.

You will then see the Vendor history. You can sort A-Z by selecting a column head, select again to sort Z-A. Select Filter to filter the information.
LIST OF RECEIVING CODES - FPIPKSL

Find a list of your receiving codes, with the dates and your packing slip, for a particular purchase order. This is very helpful for Standing orders or Regular order with multiple invoices and receiving codes.

Go To FPIPKSL.

You will see a form filled with Receiving Codes with the related Packing Slip, Vendor and Date received.

Select Filter from the top right side of the form.

From the drop down menu, select Purchase Order. Select "Contains" or "Equals". Enter the PO number. Select Go.

You will see Receiving Code, Packing Slip, Vendor and Date received for that particular Purchase Order.
PURCHASE ORDERS BY VENDOR - FPIOPOV

Find a list of all the purchase order for a particular vendor. Go To FPIOPOV.

Fill in the Vendor ID or select the three dots next to the field to search.

From the drop down menu, select Last Name. Select "Contains" or "Equals". Enter the Name (Case Sensitive).

Select Go.

You will see a list of vendors, double click on the ID of the correct vendor.

You will see all the PO’s and Commodities in the fiscal period for that Vendor.
## APPENDIX A - REQ TO CHECK PROCESS

SSB - Self-Service Banner  
B9AP - Banner 9 Admin Pages

<table>
<thead>
<tr>
<th>Step</th>
<th>Process</th>

## APPENDIX C - RULE CODES

### Rule Codes

Common rule codes (under **Type** in the Budget forms) you might see in Banner Finance forms:

- **PORD** - Establish purchase order (when a PO is created)
- **INNI** - Accounts payable invoice without encumbrance (like an MDV or direct pay to Rowan’s travel agency)
- **INEI** - Invoice with encumbrance (a Purchase Order or travel encumbrance is attached to the Invoice)
- **INEC** - Credit memo with encumbrance a Purchase Order or travel encumbrance is attached to the credit memo)
- **DNNI** - Check - invoice without encumbrance (like a check for an MDV)
- **DNEI** - Check - invoice with encumbrance (a purchase order or travel voucher is attached to the check)
- **BDZ1** - Budget transfer done by end user
- **E100** - Travel Encumbrance
- **E032** - Encumbrance Liquidation
- **E090** - Encumbrance Roll

### Invoice Transactions

- **INNI** - Accounts payable invoice without encumbrance
- **INNC** - Credit memo without encumbrance
- **ICNI** - Cancel invoice without encumbrance
- **ICNC** - Cancel credit memo without encumbrance
- **ICEI** - Cancel invoice with encumbrance
- **ICEC** - Cancel credit memo with encumbrance
- **DNNC** - Check - C/M without encumbrance
- **DNEC** - Check - C/M with encumbrance
- **CNMI** - Cancel check - invoice without encumbrance
- **CNMC** - Cancel check - C/M without encumbrance
- **CNEI** - Cancel check - invoice with encumbrance
- **CNEC** - Cancel check - C/M with encumbrance

### Budget Entries

- **BD01** - Permanent adopted budget
- **BD02** - Permanent budget adjustments
- **BD03** - Temporary adopted budget
- **BD04** - Temporary budget adjustment

### Self Service Budget Transfer (Site Specific)

- **BXF** - Self Service Budget Transfer
- **BXP** - Self Service Budget Transfer – Utility Pool

### Research Accounting

- **RAR** - Accrued A/R
- **GRRV** - Accrued revenue
- **GRCC** - Cost share charge
- **GRCG** - Cost share grant
- **GRIC** - Indirect cost charge
- **GRIR** - Indirect cost recovery

### Journal Vouchers (usually entered by someone in Accounting Services or OSP)

- **JE16** - General Journal Entry (Inter Fund)
- **JE15** - General Journal Entry (Intra-fund)
- **JZPC** - Rowan PCard Feed
Find your Fund and Org Access - Banner Self Service rowan.edu/selfservice
Log in with Banner ID and PIN. Go to Employee Tab. Select the Employee Dashboard hyperlink. Select My Profile. Select My Fund/Orgn Access.
APPENDIX E - LEAVE PROGRAM CODE OFF IN FGIBDST

Example of why to leave Program Code off in FGIBDST.

Program code is entered and the total balance for 7218 is $297.90

Program code is not entered and the total balance for 7218 is $462.72
APPENDIX E - LEAVE PROGRAM CODE OFF IN FGIBDST

By putting 11 into the Program code, you can see that $164.82 was entered into the incorrect Program Code. This is why the two FGIBDST screens show different totals when a program code is entered and when it is left blank.
