Learning Objectives

The learner will be able to:

1. Access Curriculum Review
2. Complete a Curriculum Review Proposal
3. Attach Documentation to a Proposal
4. Understand OnBase Terms
5. Approve and Return Proposals
6. Search for Proposals
7. Understand Workflow
8. View Proposal Attachments
9. View Proposal Examples for Six Total Proposal Types

Overview

The University Senate and Office of the Provost are automating the curriculum submission process using an application called OnBase. OnBase provides a streamlined, paperless process that will automatically route proposals to the appropriate parties, allow users to keep track of revisions, and provide status updates with just a few keystrokes. The approval steps for proposals are the same, only the process has changed.

Accessing Curriculum Review

Sponsors/Co-Sponsors will submit their proposals through a form using an internet browser. Approvers will make decisions on the proposals through OnBase. Google Chrome is recommended for the best results, however, Curriculum Review is also supported by Internet Explorer 11.

To begin a new curriculum proposal as a Sponsor/Co-Sponsor, visit

<https://go.rowan.edu/Curriculumreview>

To review a proposal as an Approver, visit **<https://go.rowan.edu/onbase>**

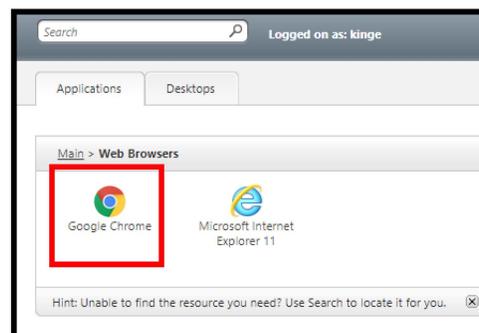

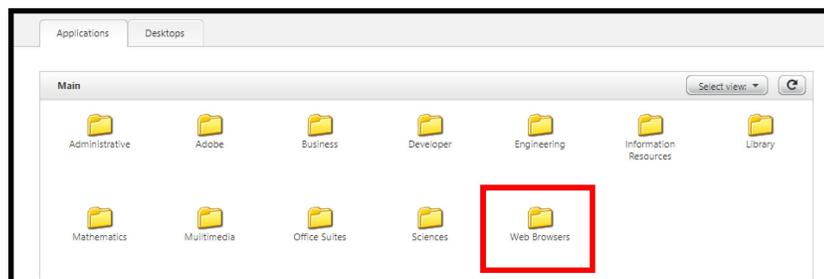

To log in to the OnBase system to view proposals while away from campus you will be directed to the standard VPN view, if you have VPN access. If you do not have VPN access:

Follow the link and log in with your Rowan username and password. Click on the **Administrative** folder, then click on the **Curriculum Review New Proposal** icon. This will download Citrix to allow you to access the system. Go to the bottom left-hand corner of your browser window and click the **launch.ica** file. Log in again with your credentials and complete the **Duo** process if prompted.

Using Emailed Links to Forms Off Campus

If you are attempting to access a Curriculum Review proposal from off campus and are not logged in using VPN, you will not be able to launch OnBase or view a proposal by clicking the link provided in email notifications you receive. To use the links provided to you in email notifications, you will first need to visit **applications.rowan.edu** and enable a **Chrome** browser, located under the folder **Web Browsers**. Then copy and paste the link found in your email notification into the web browser.

Important Terms For Sponsor / Co-Sponsors

Sponsor/Co-Sponsor - Sponsors and Co-Sponsors will access a form online to submit one of six types of proposals for review.

Approve / Return - Approve pushes the document to the next level of approvals, return sends the document back to the Sponsor/Co-Sponsor with suggestions.

Save - There is no "Save" button on proposals for Sponsors/Co-Sponsors. The way to "Save" a proposal is to answer No to the question "Is this proposal complete?" Then hit Submit to have the proposal saved for completion later.

Returned - If a proposal is returned, notes, recommendations for improvements, or a request for further documentation will be present in the approver section of the form. When changes are made and the proposal is resubmitted, it will resume from the place in the process it was returned from.

Review - Regardless of email notifications received, the Sponsor/Co-Sponsor can review the proposal at any time and discover which queue their proposal is in.

Email Notifications - Emails will be sent for every step in the process. Every person involved in the process will receive the emails, but action will not always be required.

Sponsors / Co-Sponsors

Sponsors/Co-Sponsors will access the form online to submit one of six types of proposals:

- New Course requests
- Changes to Existing courses
- New Degree/Program requests
- Changes to Existing Degree/Programs
- Accelerated Undergrad/Grad Dual Degree Program
- Quasi Curricular Proposals.

Once the form is accessed, depending on the proposal type, each field must be completed in each section of the form. If the intent is to submit the form and the answer to the question at the bottom of the form "**Is this Form Complete**" is **Yes**, all supporting documentation should be attached and **Submit** will be chosen. If the answer is **No** and the form will be completed in the future, supporting documentation will need to be added later when the form is complete and ready to be submitted. If a proposal needs to be saved to finish at a later date, there is no "Save" button on the proposal form. The way to "Save" a proposal is to answer **No** to the question "**Is this proposal complete?**" Then hit **Submit** to have the proposal saved for completion at a later date.

Once a proposal is submitted only a Sponsor/Co-Sponsor can withdraw the proposal. If the proposal needs to be reinstated, the Sponsor/Co-Sponsor must contact the support desk either by emailing support@rowan.edu, or by visiting support.rowan.edu. Please include the proposal number in your request.

To attach necessary documentation to your proposal, follow these steps:

1. Each Section that requires an attachment contains an attach button
2. Click on the attach button
3. Navigate to the file on your computer
4. Click on the file you need uploaded
5. Click on the Open button (Choose button on a Mac)
6. Repeat these steps for each section that requires an attached document
7. Click on the Submit button to save the attached documents to the form

Please see the appropriate Appendix to view examples of each of the six proposal types, and to view answers to questions regarding how they are completed.

Information for Approvers

Once the proposal has initially been submitted, all approvers can access proposals requiring approval through a link to the form, which will be emailed to the appropriate parties depending on where it is in the approval process. Please see Page 4 for directions using links if you are off campus. If approval is needed, the expectation is that the appropriate person within the process will review the proposal and any documentation attached, and either **Approve** the proposal, which forwards it to the next approver in the process or **Return** the proposal. If the proposal is returned, notes should be included as to why, as well as suggestions on missing information that must be included if the proposal is to be approved when resubmitted. In the event of a **Returned** proposal, all subsequent approvers will receive an email notification to inform all involved parties where the proposal is in the process.

IMPORTANT NOTE

The link to an OnBase form is emailed to you as the Sponsor / Co-Sponsor when it has been saved as a draft, or returned by an approver. When you follow the link the fields are editable. If that email is forwarded to another person, they will be able to edit the fields, attach documents and submit the form on your behalf. Be certain you are comfortable with someone editing your proposal fields or attaching documents on your behalf as Sponsor / Co-sponsor before you make the decision to forward the email.

Proposal Approvers

If there is a proposal to review, an Approver will receive an email notification. There will be a link to the proposal and the Approver can click the link to view the information. An approver can also log in to the OnBase system to view one or more proposals awaiting their approval. See Page 4 of this guide for directions on how to access the OnBase system and how to use links while off campus.

Important Terms For Approvers

Here is useful terminology used while logged in to OnBase to view, review, approve and return proposals:

Workflow - Workflow is an electronic document routing system that enables users to process work more efficiently, quickly, and more accurately than with traditional paper. OnBase Workflow handles successive points of input or action required in order to complete a task, process, or procedure. From processing transcripts to reviewing exceptions, Workflow streamlines collaboration.

Queue - Queues are the basic elements in a Workflow. A queue represents a document's current state or point in a process

Document Retrieval - Document Retrieval is a view that allows you to search for a proposal form. You can select one type or multiple types of curriculum review forms and view supporting attachments, using a variety of criteria and keywords.

Life Cycle - A series of queues and transitions, or how the material submitted progresses through OnBase using the steps of approval.

Approve / Return - For OnBase users, this is the ability to approve or deny a request by using the two buttons available in OnBase. One button is an approve button and the other a return button.

Custom Query - Pre-configured document retrieval formats used for displaying documents (or groups of documents) that are frequently or routinely accessed.

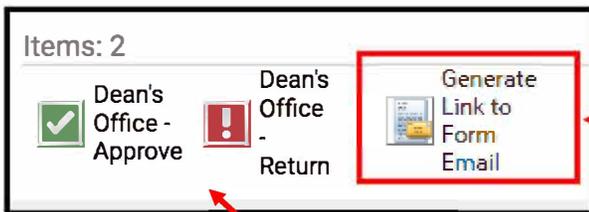

Keyword Search - Keyword search is the ability to search through curriculum proposals using specific criteria. Items like date, change type, status, proposal ID, effective year and term, and many other types of criteria can be used.

The screenshot displays the OnBase Document Retrieval interface. At the top left, a red box highlights the 'Document Retrieval' menu item. Below it, a list of document types is shown, with 'CR Curriculum Change Proposal Form' selected. A search filter panel on the left is also highlighted with a red box, showing 'Search Type' set to 'KEYWORDS' and 'NOTES'. The main area shows search results for 'CR Curriculum Change Proposal Form' with details like Proposal ID: 3589603 and Status: DEPARTMENT CURRICULUM CHAIR REVIEW. Below the search results, a detailed view of the 'Curriculum Change Proposal Form' is shown, with fields for Proposal Date, Submitted By, Effective Term & Year, Curriculum Change Proposal Type, Proposal Status, Proposal Sponsor, Co-Sponsor, Proposing School/College, Proposing Department, Proposal ID, Sponsor's Email Address, Co-Sponsor Email Address, Proposing Department, Course Information, Course Subject, Course Number, and Course Title. A red arrow points from the 'Document Retrieval' menu to the search filter panel, and another red arrow points from the search filter panel to the 'Submitted By' field in the form view.

Approve or Return Proposals

To Approve or Return a proposal:

1. Many of the fields will auto populate with the correct information when the approver accesses the form. These fields are read-only.
2. After reviewing the form requiring action, if additional documentation is needed by the approver, it can be attached by selecting the button **Attach Approver Supporting Document**.
3. Once you have selected the button, navigate to the document needed on your computer and click to choose the file, then select **Open** (**Choose** on a mac). Then chose **Submit** to attach the document(s).
4. **Notes** is a free-form text field for the approver to log notes regarding the proposal after selecting **Approve** or **Return**. There is a limit of 100 characters in this field. If you have more feedback than 100 characters, you should write the feedback in a document and attach it via the **Attach Approver Supporting Document** button. This will need to be done before approving. If you have less characters than the limit, the feedback can be entered after the **Approve** or **Return** button is selected in the **Notes** box.
5. Choose the green **Approve** or red **Return** button under the inbox section of the page. **Approve** will push the proposal to the next approver, **Return** will alert the **Sponsor** that there are notes regarding the proposal. This is how a decision on the proposal is made.

Some approvers will see the **Generate Link to Form Email** button. This will create an emailed link, which they can forward to members of their committee, who might need to view the proposal. Approvers must check their email for the link after choosing this option.

Many of the fields will auto populate with the correct information when the approver accesses the form. These fields are read-only.

Submit

Attach Approver Supporting Document allows you to attach documents needed to support your decision. Then hit the **Submit** button to attach the document(s).

Searching for Proposals in OnBase

Log in to Onbase to view proposals when you don't have a link or you need to view multiple proposals. Upon entering OnBase, most approvers will be able to view only those proposals that are in their queue to review, **Approve** or **Return**. Proposals can be located using a variety of criteria, for example:

- Date Range
- Proposal ID
- Proposal Date
- Proposal Status
- Curriculum Change Type
- Proposal Originator (Sponsor/Co-Sponsor)
- Proposal Originator Email Address (Sponsor/Co-Sponsor Email)
- Completion Status

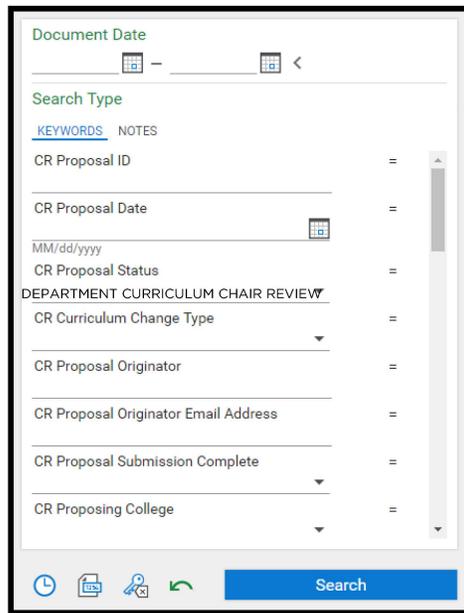

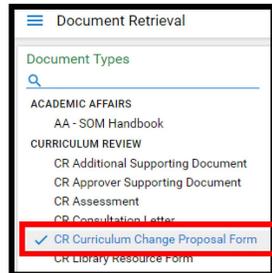

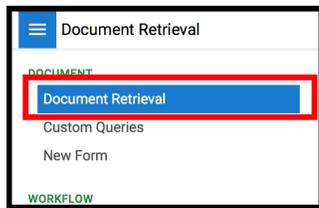

And many more. You can also search by Approval Details such as Current Date, Approver Name, Queue Name, Decision, and Approver Notes.

The screenshot shows the OnBase Document Retrieval interface. On the left, there are filters for Document Types (with 'CR Curriculum Change Proposal Form' selected), Document Date, and Search Type (KEYWORDS). The main area shows search results for 'Curriculum Change Proposal Form' with 4 items. One result is highlighted, showing details like Proposal ID: 3589019, Sponsor: AMY MUELLER, and Date: 10/23/2018. Below the results is a detailed form for the selected proposal, including fields for Proposal Date, Status, Submitted By, Sponsor, Co-Sponsor, Effective Term, Proposing School/College, and Department.

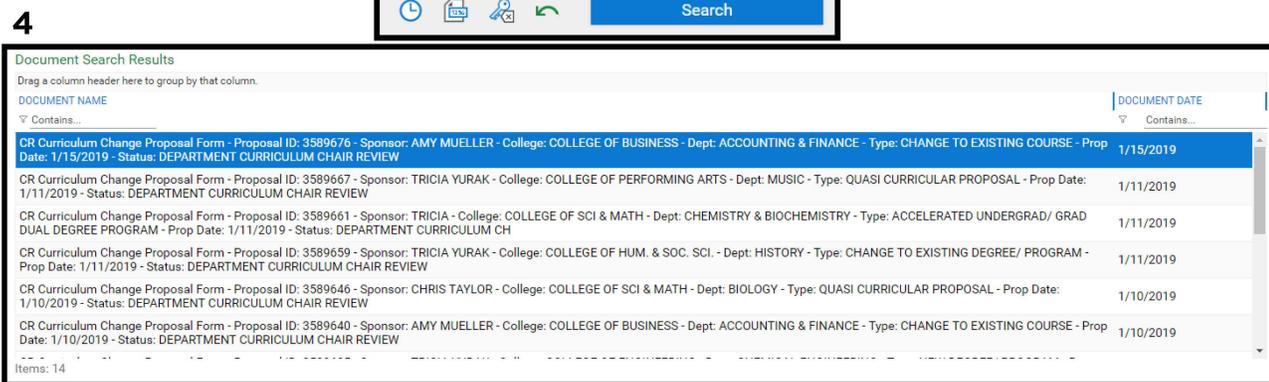

This close-up shows the 'Document Retrieval' menu. The 'DOCUMENT' section is expanded, and 'Document Retrieval' is highlighted with a blue bar and the number 1. Other options include Custom Queries, New Form, Open Workflow, Open StatusView, and Locked Objects.

1. Main Menu - Document Retrieval, Custom Queries, New Form, Open Workflow, Open StatusView, Locked Objects
2. Curriculum Change Proposal Forms - View submitted and incomplete Curriculum Change Proposal Forms
3. Search Criteria - Search for forms using a variety of criteria
4. Document Search Results - View returned results with information about the proposal.
5. Document Viewer - View the results organized by contents, or date by clicking on the field name or filter results using the filter button 
6. Document Viewer - View the form that was searched.
7. Proposal Status - Where the proposal is in the queue. Only the appropriate approver within the queue should take action at this time.

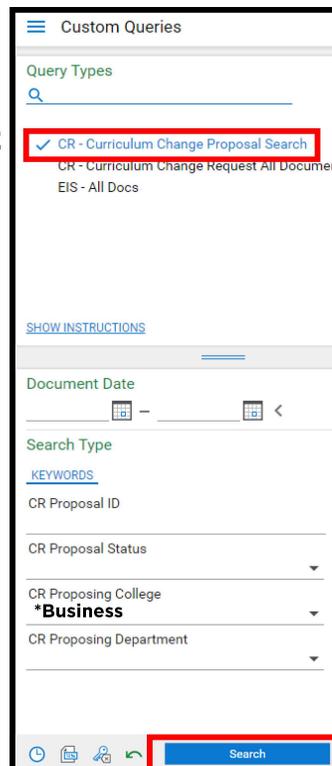

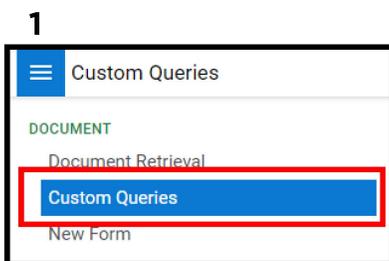

Finding Proposals with Document Retrieval

1. To search for a proposal, choose the Main menu and then choose **Document Retrieval**.
2. Then choose **CR Curriculum Change Proposal Form**.
3. Enter the desired search criteria. Click the **Search** Button or hit the **Return** key on your keyboard.
4. Choose the proposal you would like to review by double clicking the title.
5. If there is only one result it will load automatically.

Finding Proposals with Custom Queries

1. To search for a proposal using **Custom Queries**, choose the Main menu and then choose **Custom Queries**.
2. Then choose **CR Curriculum Change Proposal Search**.
3. Enter the desired search criteria. Use the Proposal ID if you have it. The * on your keyboard is a wildcard. If you know the college or department name, use an * followed by the college or department name. For example ***Business** to search College of Business proposals.
4. Click the **Search** Button or hit the **Return** key on your keyboard.
5. If there is only one result it will load automatically.

Workflow

The first screenshot shows the OnBase main menu with 'Open Workflow' highlighted in a red box. The second screenshot shows the 'Life Cycle View' with 'CR Curriculum Review' selected. The third screenshot shows an 'Inbox' list of curriculum change proposals, with one selected. The fourth screenshot shows the details of the selected proposal, including 'Document Type' and 'CR PROPOSAL ID'.

The screenshot displays the 'Curriculum Change Proposal Form' with the following sections and fields:

- Proposal Date:** 01/15/2019
- Submitted By*:** AMY MUELLER
- Effective Term & Year*:** 202040 - FALL 2020
- Curriculum Change Proposal Type*:** CHANGE TO EXISTING COURSE
- Proposal Status:** DEPARTMENT CURRICULUM CHAIR REVIEW
- Proposal Sponsor*:** AMY MUELLER
- Co-Sponsor:** (empty)
- Proposing School/College*:** COLLEGE OF BUSINESS
- Proposal ID:** 3589676
- Sponsor's Email Address*:** MUELLERA@ROWAN.EDU
- Co-Sponsor Email Address:** (empty)
- Proposing Department*:** ACCOUNTING & FINANCE
- Course Information:**
 - Course Subject*:** ACCT
 - Course Number:** 11.111
 - Course Title*:** asdfdasf
- Curricular Effect:**
 - Elective/Required*:** Elective
 - Course Effect for Students:** asdfdasf
 - Course Effect on Other Courses:** asdfdasf
 - Course Effect on Other Programs, Departments or Colleges:** asdfdasf

At the bottom left, there are three buttons: 'Approve', 'Return', and 'Generate Link to Form Email'.

To View and Approve or Return a proposal, enter the Workflow Interface Display.

1. Choose **Open Workflow** from the Main Menu. The Workflow Interface Display opens in a new window.
2. In the Workflow Interface Display, under Life Cycle View, double click **CR Curriculum Review**, and choose the appropriate queue based on role.
3. Choose the proposal you would like to review by clicking on it.
4. If there is supporting documentation for the proposal it will be available in the work folder section. Double click on the documentation you would like to view. For directions on how to find and view your attachment in your downloads folder see page 11.
5. From this view you can also review the proposal, download and review the supporting documentation, **Approve**, **Return**, or **Generate Link to Form Email** for the purpose of sharing the proposal if needed with committee members. **Generate Link to Form Email** will only appear in some queues.

Viewing Proposal Attachments and Finding Downloaded Files

To view the attachments supporting the curriculum proposal, the approver may need to download the supporting documentation. When reviewing the documents, they will be downloaded into the downloads folder on your computer. To view those documents, take note of the title of the supporting documentation on the form. Click on the attachment. If the document does not open automatically, follow these steps:

1. On a PC, navigate to the windows explorer and on the left hand side choose the downloads folder. Find the title of the supporting documentation and double-click to open.
2. On a Mac, click on the finder icon. Navigate to the downloads folder on the side bar and then search for the appropriate documents. Double-click to open.
3. If proof your document downloaded is visible in the internet browser window, you can also right click on the document and chose **“show in folder”** on a PC or **“show in finder”** on a Mac.

The screenshot shows a form with several sections, each with a yellow header and a white body. The sections are: 'Supporting Documentation', 'Program Guide (1)', 'Program Guide', 'Library Resource Form (1)', 'Assessment', 'Consultation Letters (1)', 'Additional Supporting Documentation', 'Is this Form Complete?', 'Approval Notes', and 'Approver Supporting Documentation'. Red boxes highlight the text links in the 'Program Guide (1)' and 'Consultation Letters (1)' sections. Red arrows point from the text on the right to these highlighted links. The 'Approval Notes' section contains a table with columns for Current Date, Approver Name, Decision, Notes, and Queue Name, and an 'Add' button. The 'Approver Supporting Documentation' section has an 'Attach Approver Supporting Document' button. At the bottom left is a 'Submit' button.

Click on the document to start the download process.

Supporting documents are located at the bottom of the proposal

Requirements for Admission & Graduation

Admission Indicate the requirements for admission to the program (e.g., GPA, standardized test scores, etc.) If no changes are being made, state 'no changes'.

*

Graduation Indicate any program-specific requirements for graduation (other than "Student in Good Standing", e.g., completion of thesis, etc.) If no changes are being made, state 'no changes'.

*

Student Status This generally refers to the GPA or to other requirements a student must maintain to remain in the program. NOTE: The default response to this question for an undergraduate program is "A student must maintain good academic standing as defined by the University." If the undergraduate program is requiring standards above this (such as a 2.5 or higher in program coursework), a detailed justification for the standard must also be included. Graduate programs often require an average GPA higher than 2.0 as well as minimum grade requirements for individual courses, as well as other limits. Sponsors may use this section to specify such requirements as well as the number of times a student may repeat graduate coursework where the minimum GPA has not been met. If no changes are being made, state 'no changes'.

Requirements for Admission & Graduation

Admission Address the admission criteria for both the undergraduate and graduate degrees individually. Explain at what point students will apply to the graduate portion of the program and list all additional requirements – including any requirements related to the application process, GPA, required coursework the applicant should have completed, etc.

*

Insert info here

Graduation Specify the requirements for graduating with the dual degree. This would include GPA for both the undergraduate and graduate degrees. Note: Students who meet the requirements for the graduate degree will receive both degrees simultaneously.

*

Insert info here

Student Status Explain any requirements the student must meet to remain in the program, particularly the graduate program, such as maintaining a certain GPA, earning a minimum final grade for individual courses, full-time status, etc. Sponsors also should provide an "opt-out" clause for students who have begun the graduate portion of their coursework for the degree but who cannot complete the degree.
