Emergency maintenance to cause network outage tonight

Information Resources & Technology will be performing emergency maintenance on network infrastructure tonight (Jan. 31) in order to address a backup power issue. This work will cause a roughly one-hour outage beginning at 10 p.m.

The outage will affect phone services for Public Safety. If you have a police, fire or medical emergency during this outage, please call 911.

The outage will also affect wired and wireless network services in all buildings on the north side of Route 322 in Glassboro, which includes Chestnut, Mimosa, Magnolia and Willow halls, the Edgewood Park Apartments and Holly Pointe Commons. The Rowan Boulevard Apartments will also be affected by this outage. Outbound and inbound calling will not work on the Glassboro campus during this outage.

We must complete this emergency maintenance tonight in order to address a power issue that interrupted network and phone services on Tuesday night. Our technicians are still working with our vendor to remediate the problems students are experiencing when trying to connect to RowanSecure in the residence halls.

If you have any questions or concerns, please contact us at support@rowan.edu or 856-256-4400.
